which is your favorite place and why?

I travel to multiple places once I get the time from my schedule. I like the mountains and there is one place Kedareshwar which is near Palanpur. There is a temple on top of the mountain and then I used to travel to the place with my friends that is why I like this place so much.

HR Questions

why are you interested in IT field?

I was always creative and able to put my creative ideas on paper, I decided to start my career as a web designer in the IT field. After gaining some experience in this field currently, I'm learning ReactJS so that I can apply creativity and development and give the best solutions.

Where do you see yourself after 5 years?

In the next 5 years, I want to be a Full stack developer and team lead so that I can provide proper guidance and support to the team members.

THANK YOU
